

SELLER'S PROPERTY DISCLOSURE

Under Maine Law, certain information must be made available to buyers prior to or during preparation of an offer. This statement has been prepared to assist prospective buyers in evaluating this property. This disclosure is not a warranty of the condition of the property and is not part of any contract between the Seller and any buyer. The Seller authorizes the Listing Broker in this transaction to disclose the information in this statement to other real estate licensees and to prospective buyers of this property. The Seller agrees to notify the Listing Broker promptly of any changes in the information and this form will be appropriately changed with an amendment date. Inspections are highly recommended.

NOTE: DO NOT LEAVE ANY QUESTIONS BLANK. WRITE N/A (NOT APPLICABLE) OR UNKNOWN IF NEEDED.

PROPERTY LOCATED AT: 124 Sherman, Portland, ME 04101

SECTION I. WATER SUPPLY

TYPE OF SYSTEM: Public Private Seasonal _____ Unknown

 • as insulation on the heating system pipes or duct work? Yes No Unknown
 • in the siding? Yes No Unknown • in the roofing shingles? Yes No Unknown
 • in flooring tiles? Yes No Unknown • other: _____ Yes No Unknown
 IF YES: Source of Information: visual
 COMMENTS: none

C. RADON/AIR - Current or previously existing:
 Has the property been tested? Yes No Unknown
 IF YES: Date: _____ By: _____
 Results: _____ If applicable, What remedial steps were taken? _____
 Has the property been tested since remedial steps? Yes No Unknown
 Are test results available? Yes No Results & Comments: _____

D. RADON/WATER - Current or previously existing:
 Has the property been tested? Yes No Unknown
 IF YES: Date: _____ By: _____
 Results: _____ If applicable, What remedial steps were taken? _____
 Has the property been tested since remedial steps? Yes No Unknown
 Are test results available? Yes No Results & Comments: _____

E. LEAD-BASED PAINT/PAINT HAZARDS - Current or previously existing: (Note: Lead-based paint is most commonly found in homes constructed prior to 1978; See EPA Disclosure brochure/form and Maine Lead Warning for more information)
 Is there now or has there ever been lead-based paint and/or lead-based paint hazards on the property? Yes No Unknown
 Unknown but possible due to age
 IF YES, describe location and the basis for the determination: Deb Kasik City of Portland (see below)
 Do you know of any records or reports pertaining to such lead-based paint or lead-based paint hazards: Yes No
 IF YES, describe: Tested positive for lead paint in Kitchen under wallpaper, on steps to the third floor and under carpet on the third floor, & various other places
 Are you aware of any cracking, peeling or flaking paint? Yes No
 COMMENTS: various places

PROPERTY LOCATED AT 124 Sherman, Portland, ME 04101

F. OTHER HAZARDOUS MATERIALS - Current or previously existing:

- TOXIC MATERIAL: Yes No Unknown
- LAND FILL: Yes No Unknown
- RADIOACTIVE MATERIAL: Yes No Unknown

OTHER: _____

Buyers are encouraged to seek information from professionals regarding any specific issue or concern.

SECTION V. GENERAL INFORMATION

Is the property subject to or have the benefit of any encroachments, easements, rights-of-way, leases, rights of first refusal, life estates, private way, private road/homeowner associations or restrictive covenants? Yes No Unknown

IF YES: Explain: _____

What is your source of information: Seller, Deed

Are there any tax exemption or reduction for this property for any reason including but not limited to: Tree Growth, Open Space and Farmland, Veteran's, Homestead Exemption, Blind, Working Waterfront? Yes No Unknown

IF YES: Explain: _____

- Leased Equipment (e.g., propane tank, hot water heater, satellite dish): Type: 2 water heaters
- Year Built: 1896 What year did Seller purchase property? 2008
- Roof: Year Built - Structure: unknown possible some repair 2007 Year Shingles Installed: 2007
Moisture or leakage: none apparent
Comments: none
- Foundation/Basement: Sump Pump: Yes No Unknown Comments: none apparent
Moisture or leakage since you owned the property: Yes No Unknown Comments: none apparent
Knowledge of prior moisture or leakage: Yes No Unknown Comments: none apparent
- Mold: Has the property ever been tested for mold? Yes No Unknown If YES, are test results available? Yes No
- Electrical: Fuses Circuit Breaker Other: _____ Unknown
- Has the property been surveyed? Yes No Unknown If YES, is the survey available? Yes No
- Manufactured Housing: Mobile Home - Yes No Modular: Yes No
- KNOWN MATERIAL DEFECTS about Physical Condition and/or value of Property, including those that may have an adverse impact on health/safety: _____

Seller shall be responsible and liable for any failure to provide known information regarding known material defects to the Buyer.

ATTACHMENTS EXPLAINING CURRENT PROBLEMS, PAST REPAIRS OR ADDITIONAL INFORMATION IN ANY SECTION IN DISCLOSURE: Yes No

SECTION VI. ADDITIONAL INFORMATION

on Lead-Based Paint and/or Lead-Based Paint Hazards**

Lead Warning Statement

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

Seller's Disclosure

(a) Presence of lead-based paint and/or lead-based paint hazards (check (i) or (ii) below):

(i) Known lead-based paint and/or lead-based paint hazards are present in the housing (explain).

Tested and kitchen behind wall paper, steps leading to third floor
and third floor below carpet

(ii) _____ Seller has no knowledge of lead-based paint and/or lead-based paint hazards in the housing.

(b) Records and reports available to the seller (check (i) or (ii) below):

(i) _____ Seller has provided the purchaser with all available records and reports pertaining to lead-based paint and/or lead-based paint hazards in the housing (list documents below).

(ii) _____ Seller has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the housing.

Purchaser's Acknowledgement (initial)

- (c) _____ Purchaser has received copies of all information listed above.
- (d) _____ Purchaser has received the pamphlet *Protect Your Family from Lead in Your Home*
- (e) Purchaser has (check (i) or (ii) below):
 - (i) _____ received a 10-day opportunity (or mutually agreed upon period) to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards; or
 - (ii) _____ waived the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards.

Agent's Acknowledgement (initial)

- (f) ing Agent has informed the seller of the seller's obligations under 42 U.S.C.4852d and is aware of his/her responsibility to ensure compliance.

IF YOU WORK WITH CCA WOOD

- **NEVER** burn CCA wood.
- Wear gloves when handling CCA wood
- Wear a dust mask when sanding or cutting CCA wood
- Don't work with CCA wood in an enclosed area (like a garage)

Apply a coating to seal the wood every 1-2 years

Does Your New Home Have Arsenic (CCA) Treated Wood?

About half of all Maine homes have a deck, or playground or some other structure that is made of wood treated with arsenic. This wood is called "CCA pressure-treated wood" or just "pressure-treated" wood. The wood was treated with arsenic to protect against rot and insects.

Too much arsenic can cause cancer. So it is good to prevent arsenic getting into your body when you can. When you touch wood treated with arsenic, you can get arsenic on your hands. The arsenic on your hands can get into your mouth if you are not careful about washing before eating. Young children are most at risk because they are more likely to put their hands in their mouths. The good news is that there are simple things you can do to protect yourself and your family from arsenic treated wood. This fact sheet will tell you how.

Children touching unsealed treated wood, and then putting their hands in their mouths is the biggest concern.

First: Does your house have arsenic treated (CCA) wood?

When arsenic treated wood is new, it tends to have a greenish tint. When CCA wood is older, it is harder to tell. Ask your realtor if the seller knows whether CCA wood was used. You can also test the wood to find out if it contains arsenic. Call us to find out how.

Second: If so, reduce contact with the arsenic.

You can lower the amount of arsenic on the surface of the wood by applying a coating on the wood every 1-2 years. Oil-based sealants, varnishes, or polyurethane work best for sealing arsenic in the wood. Be sure to wash your children's hands when they finish playing on or near CCA wood.

Third: If you have any questions, call us toll-free in Maine: 866-292-3474

Common Questions

What is CCA wood?

CCA wood is made by dipping the wood in a mixture of chemicals. These chemicals include chromium, copper, and arsenic. This protects the wood against insects and rot. This wood is known as CCA wood or "pressure treated" wood. Most pressure treated wood in the U.S. is CCA wood. After December 31, 2003, no more CCA wood will be made for use around homes. CCA wood may still be sold for home use until April 1, 2004 in the state of Maine.

What is Arsenic?

Arsenic is found in soil and rocks. Most people get a little arsenic every day from the food they eat. Also, some people have arsenic in their private wells, which is why it is important that anyone with a well have it tested for arsenic. People who are exposed to too much arsenic over many years are more likely to get cancer.
